BUDGET AT A GLANCE.pdf

46. Limit financing of INVTs and REITs by foreign portfolio investors will be enabled by making suitable amendments in the relevant legislations. This will further ease access of finance to INVTs and REITs thus augmenting funds for infrastructure and real estate sectors.

Asset Monetisation

47. Monetising operating public infrastructure assets is a very important financing option for new infrastructure construction. A "National Monetisation Pipeline" of potential brownfield infrastructure assets will be launched. An Asset Monetisation dashboard will also be created for tracking the progress and to provide visibility to investors. Some important measures in the direction of monetisation are:

- National Highways Authority of India and PGCIL, each have approved one INVT that will attract international and domestic institutional investors. The operational assets with an estimated aggregate value of ₹5,000 crore are being transferred to the INVT. Similarly, transmission assets of a value of ₹7,000 crore will be transferred to the PGCIL INVT.
- Railways will monetise Dedicated Freight Corridor assets for operations and maintenance after commissioning.
- The next list of airports will be monetised for operations and management concession.
- Other core infrastructure assets that will be rolled out under the Asset Monetisation Programme are: (i) INM Operational Toll Roads (ii) Transmission Assets of PGCIL, (iii) Oil and Gas Pipelines of GAIL, IOCL and HPCL, (iv) AIJ Airports in Tier II and III cities, (v) Other
