Aakraya: The commerce association of Sri Aurobindo College, Delhi University, orchestrated a thought-provoking webinar titled "AI Revolution: Transforming Jobs and Workforce." The distinguished speaker, Jitendra Anand, President of Erisha E-mobility, provided an enlightening platform for students to comprehend the intricacies of AI and its research domain.

He eloquently highlighted the potential of AI in fostering a positive trajectory for future job landscapes. Notably, the session was marked by its interactive nature, as Anand Sir actively engaged with students, welcoming their thoughts and addressing their queries, thereby enhancing the overall experience.

With an audience comprising both educators and approximately 90 enthusiastic students, the webinar became an intellectually stimulating

forum. His presentation not only elucidated the transformative potential of AI across various industries but also offered invaluable guidance to the attending students, facilitating a comprehensive understanding of the evolving job market influenced by AI.

In essence, the webinar emerged as an enriching and engaging event, leaving a resounding impact on all participants by elucidating the transformative potential of AI on the job landscape and its relevance in shaping a future propelled by innovation and technological advancements.

## ● ORIENTATION FOR BATCH 23

**DATE: 16TH AUGUST 2023**

**VENUE: SEMINAR HALL**

The Commerce Department of Sri Aurobindo college organised an orientation cum induction programme for the batch of 2023. The occasion marked the culmination of academics and Co-curricular activities of the department. Also Included the courses, VAC, SEC and things introduced in the new education policy. An opportunity for students and faculty Members to interact with each other and know each other for the upcoming 3 years journey. Orientation program is basically to welcome and orient freshers with the given department. It is inaugurated by the Principal Sir (Vipin kumar Aggarwal) and the teacher incharge of commerce department and department teachers deliver speeches along with a charming cultural program. It is basically a gathering of the freshers at a specific place in college where we are introduced with the course faculty and seniors. We also get the opportunity to interact with each other. They give us all the details about the college such as when it was established and about the success journey. They told us how our college has always been performing well in sports, dance, cultural activities, NSS, NCC and other societies. They told us about the New Education Policy (NEP), in accordance with which we are going to study skill enhancement courses and value addition courses along with the major subjects. They introduced us with the system of 4 year graduation which had been introduced in NEP. They also told us about the difference between b.com and b.com honours. And, then at last they wish us all the best for our future endeavours.

In collaboration with EY and AIESEC, students of Sri Aurobindo College, Delhi, organised a pioneering Climate Change Case Study Competition at the prestigious Indian Institute of Technology (IIT), Delhi. This competition aimed to foster innovative solutions to combat climate change while nurturing the spirit of collaboration and creativity among students.

The purpose of the event was to address the practical issues raised by climate change by bringing together students from various academic backgrounds. In order to cover the different aspects of the climate catastrophe, from mitigation solutions to adaptation measures, participants had to create thorough case studies.

Principle Themes Addressed;

- Renewable energy

integration: Strategies to increase the adoption of renewable energy sources and lessen reliance on fossil fuels are known as Renewable Energy Integration.

- Sustainable urbanisation: Creative methods for advancing environmentally friendly urban design and infrastructure are known as sustainable urbanisation.
- Biodiversity conservation: Initiatives to protect hotspots for biodiversity and repair damaged ecosystems are referred to as biodiversity conservation.
- Climate resilience: Climate resilience is the ability to withstand natural calamities including floods, droughts, and extreme weather occurrences.

In addition to the competition, the occasion provided a forum for networking and information sharing, encouraging cooperation between specialists, organisations dedicated to climate action, and students. The case studies produced during the competition may serve as an inspiration for practical actions and legislative measures aimed at reducing the negative impacts of climate change.
