ABOUT THE COLLEGE

Sri Aurobindo College was established in 1972, the birth centenary of the philosopher, yogi, patriot- poet and Indian nationalist Sri Aurobindo, as a constituent college of the University of Delhi. The college inculcates the ideals of Sri Aurobindo and believes that an active commitment towards excellence is fundamental to the process of education. The college is committed towards building a student-centered environment and is dedicated to education covering a broad spectrum.

ABOUT THE DEPARTMENT

Department of Commerce, a premier department of the college, has been there since its inception. Offering B. Com (Hons), B. Com and BA Commerce, the department emphasizes on an interactive teacher-learner environment. The department actively organizes national seminars, conventions, talks, guest lectures, discussions, workshops, outstation trips, as well as the annual festival for holistic development of the students.

ABOUT THE CONFERENCE

India took over the global stage as it embarked on the year-long journey of its G20 presidency. Under the theme of "**One Earth-One Family-One Future**", India had set its G20 priorities to Green Development, Climate Finance, Lifestyle for Environment, Accelerated, Inclusive & Resilient Growth, Accelerating Progress on Sustainable Development Goals (SDGs), Technological Transformation & Digital Public Infrastructure, Multilateral Institutions for the 21st Century and Women-led Development. From inclusion of African Union into G20 to achieving unanimous consent on New Delhi Declaration, India's G20 presidency left no stone unturned in marking a historic milestone. India has shown the world that the G20 can be a dream team for re-invigorated multilateralism and a values-based approach to growth and development. India has risen victoriously on the global stage as proactive contributor of global good by refocusing the G20 agenda on key developmental issues. This conference has thus been planned to set a stage for deliberations on a very crucial theme which has been sub-divided into following four sub-themes:

- **Dynamics of Economic Environment, Trade and Investment**
- **International Relations and Multilateral Reforms**
- **Digital Transformation**
- **Inclusive Growth**

The first sub-theme seeks to highlight the various initiatives taken by the Indian government to alter the dynamics of the economic environment such as promoting free and open trade, encouraging investment, addressing global imbalances, strengthening financial regulation, and making structural transformations. The second sub-theme has been carefully chosen to understand the role and consequences of India's efforts in building and strengthening international relations

ENVISIONING INDIA AS A GLOBAL LEADER: UNDER G20 PRESIDENCY

and the role it is going to play in the times to come to re-establish lost peace and world order. The third sub-theme will deliberate upon India's endeavours to develop and strengthen digital skills while adopting and understanding contemporary trends like artificial intelligence, internet of things, work from home culture, virtual reality, etc. The fourth and last sub-theme seeks to ponder upon the contribution of various schemes and initiatives such as the National Education Policy (NEP), financial inclusion schemes, women empowerment schemes, and schemes to upskill the population in promoting accelerated, inclusive and resilient growth. Thus, the conference through the discussions over these two days will shed light on the various efforts, initiatives and policies that are expected to strengthen India's position in the global arena and facilitate its emergence as a global leader. It is also anticipated that the outcomes of conference shall also prove to be fruitful for policy-makers and regulators.

It is with this state of affairs in mind that we have planned this two-day international conference. The conference will make an effort to bring together experts and practitioners from ministry, academia and industry in order to provide a stage for discussion and exchange of ideas on this premise. The conference will be of great interest to policy makers, research scholars, students and experts, consultants and professionals working in various organizations.

TECHNICAL SESSIONS AND SUB-THEMES

The sub-themes for the conference include, but are not limited to the following:
